KANSAS CITY, Mo., July 5 .- Four of the balloons in the national eliminatio race that started from here yesterday still were in the air and sailing northewhere over Michigan and Indiana today, according to the best information that could be gleaned from scant reports reaching the headquarters of the Kansas City Aero Club. The local United States Weather Observer said the winds today should carry the bags directly over the Great Lakes into

During the forenoon unknown bal loons, believed to be contestants in the national race, were sighted at Benton Harbor, Mich., and South Bend, Ind. The Goodyear of Akron, O., was reported passing Galena, Kan., early to day, and shortly afterward the crew of the Kansas City Post sent an "all's well" message from Joliet, Ill.

The other two bags, the Million Population Club.of St. Louis and the Kansas City II, had not been heard from since late last night, but were believed to be following the same general direction as the two reported today.

A message received this afternoon from Madison, Wis., said a "large white halloon" believed to be one of the na tional contestants, had passed over that city sailing rapidly east toward Lake Michigan.

First News of Balloons Sent to the Post-Dispatch.

The Post-Dispatch, early Saturday morning, received the first message from a contestant in the elimination bal-loon race which started from Kansas City Friday evening. It was from Pilot Honeywell of St. Louis and was dated Joliet, Ill.

Each contestant in the race is equipped with special telegraph blanks addressed to the Post-Dispatch. After a message is written by the pilot it is placed in waterproof envelope, weighted with a long red streamer. This is dropped from the basket when passing over a village or group of people below. Special to the Post-Dispatch.

CHICAGO, July 5.-News has reached Chicago of the marriage of Mrs. Mollie head, killing him. Netcher, a woman of great wealth an sole owner of the Boston Store, to Solmon Neuberger, a poor and obscure Chicago paint salesman, and a boyhoo sweetheart of Mrs. Netcher.

The wedding was performed, it was said, in Portland, Ore, Thursday afternoon, at the Multnomah Hotel. The couple made every effort to keep the affair a secret. They left Portland last night on their honeymoon trip, merely saying that they would receive the congratulations of their Chicago friends 'some time soon.'

The story of the romance gees far back to the time when Chicago, as a business center, was young and when the bride and groom of Thursday were a boy and girl.

The bride then was Miss Mollie Alp-

nier, a simple little girl from the cour try. She came to Chicago a number of years ago. Almost coincidental with her coming she met Solomon Neuberger. The boy loved the girl and told her so shortly after the meeting. The girl her closest friends believed, returned the affection, but the love affair was not to reach its culmination then. Little Mollie had become a clerk in the Bos

ton Store. She was ambitious and succeeded i attracting attention to her business caacity. Soon Charles Netcher, one the owners of the store and buyer for the firm, noticed that the sales of the little clerk went far in excess of thos and discovered that not only did sh have business acumen, but was per sonally charming.

are not going to have any money panic this fall. Funds are being released from isiness, and the banks here are building up their reserves. We are now nearer to reform than we have ever been before, and while there are many who dislike the administration's currency bill in its present form, it will be subject to amendment, and all the more easily by reason of the fact that the administration is obviously very solicitous about business. In its handling of tariff revision, in its offering of emergency currency, and in its attitude toward the Union Pacific-Southern Pacific divorce, it has shown clearly that it wishes to accomplish its reform with a minimum of disturbance. It may make some mistakes—or may come near to them-but its attitude is right and a little reform, conducted in this spirit, will not hurt us.

A JUDICIAL SUGGESTION ADOPTED. The address prepared by Federal Judge Mc Pherson for the meeting of the National Press Association at Colorado Springs seems to have been just what Editor Whitaker of Clinton,

Henry County, Mo., was waiting for. The distinguished jurist's generous invitation to the press not to be backward about telling what it thinks of our courts was accepted by the editor with startling promptness. In his paper, the Dail- Democrat, Editor Whitaker remarks that the Supreme Court decision in the Missouri rate case "may put the brand on Judge McPher on as an unjust Judge, but it cannot restore to people the money which has been filched unawfu'ly from their pockets." "Millions upon millions" have been taken from the said pockets, he declares. He also refers to this money as "tribute

For years no other phase of the labor move ment has received the publicity in the daily pres given to the relations of Samuel Gompers and the National Association of Manufacturers.

The strike in Mr. Van Cleave's St. Louis plant which assumed national importance when Mr. Gompers began to figure in it as the Federation of Labor president may be said to have given rise to the Manufacturers' Association in the form in which it has become known to the public. At least it was not heard of before that time As the especial N. A. M. target, Mr. Gompers has been viciously assailed. The famous contempt case against him still awaiting a second hearing in the United States Supreme Court was pressed

by association officers. But in the light of the Mulhall revelations, what N. A. M. officer or leader emerges from the struggle of years with prestige less affected than Mr. Gompers? Which side appeared to the better advantage in the shameful attempt to induce the betrayal through a huge bribe of the interests Mr. Gompers represented? If it was to be expected that as a matter of course he would resist so crass and stupid an attempt to influence him, it may be remembered that this was out one of many and much more "insidious" ways in which it was sought to neutralize his leader-

ship and ruin and destroy him. Other men much in the public eye who were accustomed to denounce Gompers as a charlatan showed much greater susceptibility to the use of N. A. M. money. The water supply of a city would be more efective if collected in one reservoir than if disributed among 12 or 15 tanks, says Senator Weeks. His illustration negatives the particular point he intended to emphasize against the new national bank bill.

Jim O'Leary, gambler, has transformed an institution that helped to increase the cost of living into an institution that will help to reduce the cost of living. In building a market of prosaic and odorous utility on the 20-acre site of former palaces of frothy amusement, he has laid a big stake on the sincerity of the ultimate consumer's clamors for better food and cheaper food. Anybody who has things to eat he wants to sell can go there and rent a well-appointed emporium of sale for 50 cents a day.

The new market has started promisingly, but will the public be as interested for any considerable period of time in looping the loops over the middleman as it is in the thrills of the switchback? LETTERS FROM THE PEOPLE

A Bout With a Coin 'Phone

To the Editor of the Post-Dispatch I entered a drug store at Lafayette and Compon avenues last night with the peaceable intention of telephoning to the Y. W. C. A. The num-ber was Olive 4875. After 12, minutes' hard, hot work, I finally left the place with my message undelivered. In that time I had communicated without intent with two residences and had the busy signal four times. I finally learned that I should call the night number.

The telephone cash box would demand coins of me and feed them out to me in the little receptacle at the bottom of the instrument, without excuse or warning. I possessed, at the beginning of the orgy, two 5-cent pieces. I inserted coins and others came forth with such abandon that at one time I had 25 cents, but the machine grew grasping toward the last, and I quit 10 cents out.

I entered the store, a voting mid-conservative. cool, prosperous and at peace with the world. I emerged hot, limp, mad, a foe of all corporations, a friend of union labor, strikers, syndicalism sabotage and physical valuation.

If the telephone service is no worse now than it was before the operators went on strike, I contend that it must have been pretty bad be-EX-CONSERVATIVE.

The Right to Be Cured.

To the Editor of the Post-Dispatch, Surely the new charter should provide for nedical freedom. Every man's right to choose his own physician is sacred. The physician who can cure will always have more than he can do, whether he be allopath, homeonath, osteopath Christian Scientist, chiropracter or what not. Our foolish State law will be repealed should we ever elect an intelligent, honest Legislature. The city ANTI-MONOPOLY.

Reconstruction of King's highway.

To the Editor of the Post-Dispatch, Being a resident of that section of the city facing Forest Park near the Chouteau avenue entrance, I have often been amused at the rapid progress of the reconstruction of King's highway boulevard from Laclede avenue to Rutger street. This stupendous task was started about four years ago and has progressed so rapidly that even Mayor Kiel or the Park Commissioner is not aware of the fact that actual work has started. About seven months ago one aged laborer and two foremen started the Herculean task of breaking a pile or rock about four feet high and extending about from McKinley avenue to Rutger street, a distance of a quarter of a mile. So far they have made rapid progress (for one man) having covered about ten feet of the distance. At this rate some of completion at six months after the opening of the free bridge to the public, or the accidental rain of manna in the form of macadam and steam rollers. ONE WHO KNOWS.

Graft and High Taxes

To the Editor of the Post-Dispatch. I wish to thank the Post-Dispatch for its St. Louis. I think its about time something was being done; it surely is a disgrace the way they have been overcharging poor people with high taxes. I am a poor widow having a little home and the children and myself had to go without the necessities of life and try and keep the little shelter we have. A POOR WIDOW.

"Sick Headache."

To the Editor of the Post-Dispatch. I notice a great deal in your paper about preention and trying to help tuberculosis patients and relieving suffering humanity in general, so thought to ask through your paper if some physicians would publish a cure for that terrible affliction commonly called "sick head-ache?" There are thousands of women, today ache?" rendered totally unable to keep their homes sanitary and neat on account of this body and mind wrecking disease and yet the family physician seems helpless to give permanent relief. Do you not think it would be worth while to investigate his ailment and discover a cure and give to the suffering public a remedy for this ailment which really worse than tuberculosis, as death brings relief to the one but the other lives on and suf fers through a long life of misery, great enough sometimes to cause one to take their own life. I hope that this will inspire some one to give to mpound money for selfish ends. The object of the suffering public a cure. A SUFFERER.

FOR BRIEFLESS BARRISTERS. From the London Standard.

The young lawyer had opened his office that very day, and sat expectant of clients. A step was heard outside, and the next moment a man's figure was silhouetted against the ground-glass of the door. Hastily the legal fledgling stepped to his brand-new telephone, and, taking down the receiver, gave every appearance of being deep in a business conversation. "Yes, Mr. S." he was saying, as the man entered, "I'll attend to that corporation matter for you. Mr. J. had me on the phone this morning, and wanted me to settle a damage suit, but I had to put him off, as I'm so rushed with cases just now. But I'll try to sandwich your matter in between my cases somehow. Yes, yes. All right. Good-Hanging up the receiver, he turned to his visitor, having, as he thought duly impressed him. "Excuse me. sir." the man said, "but I'm from the telephone company. I've come to connect up your instrument."

We were never sure about the first two days. The popular impression at the time was that the battle was a good deal of a mix-up. Fortunately, it has cleared up like. We see now that instead of being a kind of a free-for-all fight, with nobody quite certain where he was at, it was really a very orderly battle, in which everybody understood everybody else, an' every part of the contending hosts, even down to the least soldier, was moving with the mechanical nicety of the wheels of a watch. She cuts two V-shaped cuts in the cork of a small bottle, one at each side and one larger than the other. Then she puts a cupful and a half of oil into the bottle and is ready for work. Into her bowl she puts the yolk of one egg, a half-teaspoonful of salt, the same of mustard, one-quarter teaspoonful of paprika and one tablespoonful of vine-gar. She adds a few drops of lemon juice and begins to beat. The bottle is so laid that through the smaller cut the oil will drop a little at a time into the bowl. She beats with a patent egg beater and when the mixture begins to thicken she turns the bottle so the oil will run more quickly. Another woman says: Drain all the white away from the yolk of an egg that has lain in leed water for an hour. Then drop the yolk upon a thilled soup plate and squeeze upon the yolk a teaspoonful of lemon juice. With a silver fork stir the two until they are thoroughly incorporated. Have ready a bottle of the best salad oil, which has been kept in-the refrigerator. Add this to the egg, drop by drop, stirring steadily. As the mixture thickens, add the oil more freely, until you have used half a pin. Season with a generous pinch of paprika (or cayenne if you prefer, in a smaller pinch) and half a teaspoonful of salt. If it was to be expected that as a matter of course he would resist so crass and stupid an attempt to influence him, it may be remembered that this was but one of many and much more "insidious" ways in which it was sought to neutralize his leadership and ruin and destroy him.

Other men much in the public eye who were accustomed to denounce Gompers as a charlatan showed much greater susceptibility to the use of N. A. M. money. The quality of the Gompers judgment may sometimes be questioned. The country is still awaiting his denunciation of the iron workers' outrages. But it is pleasant to think that under the searching N. A. M. tests he showed the sturdy qualities of old-fashioned honesty and lovalty.

The water supply of a city would be more effective if collected in one reservoir than if distributed among 12 or 15 tanks, says Senator Weeks. His illustration negatives the particular point he intended to emphasize against the new national bank bill.

It is the water supply, not of a city, but of an entire country for which the bill is to provide. One of the possibilities against which it is expressly designed to guard is the collecting of water in one great reservoir somewhere, to be wasted perhaps or devoted to unapproved uses. has decided not to fight, but to make terms. A NEW LOOP-THE-LOOPS PARK

If somebody should turn the theater at Delmar Garden into a big poultry cage, put 500 vegetable, fruit and dairy stalls into the space now occupied by scenic railroads, water mill and band stand and arrange farm wagons loaded with garden produce in the open places, St. Louisans would see a change like the one just made at Luna Park, out Halsted street, in Chicago.

Jim O'Leary, gambler, has transformed an institution that helped to increase the cost of living into an institution that will help to reduce the cost of living. In building a market of prosaic and odorous utility on the 20-acre site of former palaces of frothy amusement, he has laid a big stake on the sincerity of the ultimate consumer's clamors for better food and cheaper food Anybody who has things to eat he wants to sell can go there and rent a well-appointed emporium of sale for 50 cents a day.

The new market has started promisingly, bu will the public be as interested for any considerable period of time in looping the loops over the middleman as it is in the thrills of the switchback? Will it find saving money as fascinating as spending money. Could Coney Island, converted into a huge market basket, draw as many people as it draws as a White City of illusions?

LETTERS FROM THE PEOPLE

A Bout With a Coin 'Phone.

To the Editor of the Post-Dispatch. I entered a drug store at Lafayette and Comp-ton avenues last night with the peaceable intention of telephoning to the Y. W. C. A. The number was Olive 4875. After 12 minutes' hard, hot work, I finally left the place with my message undelivered. In that time I had comm without intent with two residences and had the busy signal four times. I finally learned that I should call the night number.

The telephone cash box would demand coins of me and feed them out to me in the little recep-tacle at the bottom of the instrument, without excuse or warning. I possessed, at the beginning of the orgy, two 5-cent pieces. I inserted coins and others came forth with such abandor that at one time I had 25 cents, but the machine grew grasping toward the last, and I quit 10 cents out.

I entered the store, a voting mid-conservative cool, prosperous and at peace with the world. I emerged hot, limp, mad, a foe of all corporations, a friend of union labor, strikers, syndicalism sabotage and physical valuation.

If the telephone service is no worse now than t was before the operators went on strike, I contend that it must have been pretty bad be-fore. EX-CONSERVATIVE.

The Right to Be Cured.

To the Editor of the Post-Dispatch. Surely the new charter should provide for nedical freedom. Every man's right to choose his own physician is sacred. The physician who can cure will always have more than he can do whether he be allopath, homeopath, osteopath, Christian Scientist, chiropracter or what not. Out foolish State law will be repealed should we ever elect an intelligent, honest Legislature. The city charter of St. Louis should be brought up to date.

Reconstruction of King's highway.

To the Editor of the Post-Dispatch, Being a resident of that section of the city facing Forest Park near the Chouteau avenue entrance, I have often been amused at the rapid progress of the reconstruction of King's highway boulevard from Laclede avenue to Rutger street. This stupendous task was started about four years ago and has progressed so rapidly that even Mayor Kiel or the Park Commissioner is not aware of the fact that actual work has started. About seven months ago one aged laborer and two fore men started the Herculean task of breaking a pile or rock about four feet high and extending about from McKinley avenue to Rutger street, a distance of a quarter of a mile. So far they have made rapid progress (for one man) having covered about ten feet of the distance. At this rate some of the older inhabitants have estimated the time of completion at six months after the opening of the free bridge to the public, or the accidental rain of manna in the form of macadam and steam rollers. ONE WHO KNOWS.

Graft and High Taxes.

To the Editor of the Post-Dispatch. I wish to thank the Post-Dispatch for its exposure of the graft business going on in East St. Louis. I think its about time something was being done; it surely is a disgrace the way they have been overcharging poor people with high taxes. "Sick Headache."

To the Editor of the Post-Dispatch. I notice a great deal in your paper about preention and trying to help tuberculosis patients and relieving suffering humanity in general, so I thought to ask through your paper if some physicians would publish a cure for that terrible affliction commonly called "sick head-ache?" There are thousands of women, today rendered totally unable to keep their homes sanitary and neat on account of this body and mind wrecking disease and yet the family physician seems helpless to give permanent relief. Do you not think it would be worth while to investigate this ailment and discover a cure and give to the suffering public a remedy for this ailment which is really worse than tuberculosis, as death brings relief to the one but the other lives on and suf-Hydraulics and currency have analogies. FOR BRIEFLESS BARRISTERS. From the London Standard.

The young lawyer had opened his office that very day, and sat expectant of clients. A step was heard outside, and the next moment a man's figure was silhouetted against the ground-glass of the door. Hastily the legal fledgling stepped to his brand-new telephone, and, taking down the receiver, gave every appearance of being deep in a business conversation. "Yes, Mr. S.," he was saying, as the man entered, "I'll attend to that corporation matter for you. Mr. J. ha me on the phone this morning, and wanted me settle a damage suit, but I had to put him off, as I'm so rushed with cases just now. But I'll try to sandwich your matter in between my ther cases somehow. Tes, yes. All right. Goodby." Hanging up the receiver, he turned to his visitor, having, as he thought duly impressed "Excuse me, sir." the man said, "but I'r from the telephone company. I've come to connect up your instrument."

EDYTH.—There are as many theories about making mayonnaise as there are on other subjects. One woman who is very skiliful about her household work says that she finds the following a great success. She cuts two V-shaped cuts in the cork of a small bottle, one at each side and one larger than the other. Then she puts a cupful and a half of oil into the bottle and is ready for work Into her bowl she puts the yolk of one egg, a half-teaspoonful of sait, the same of mustard, one-quarter teaspoonful of half-teaspoonful of sair, the same half-teaspoonful of paprika and one tablespoonful of vinegar. She adds a few drops of lamon juice and begins to beat. The bottle is so laid that through the smaller cut the oil will drop a little at a time into the bowl. She beats with a patent est beater and when the mixture begins to thicken she turns the bottle so the oil will run more quickly. Another woman says: Drain all the white away from the yolk of an egg that has lain in leed water for an hour. Then drop the yolk upon a chilled soup plate and squeeze upon the yolk, a teaspoonful of lemon juice. With a silver fork stir the two upnit hey are thoroughly incorporated. Have ready a bottle of the best sailed oil, which has been kept in the refrigerator. Add this to the egg, drop by drop, stirring steadily. As the mixture thickens, add the oil more freely, until you have used half a pint. Season with a generous pinch of paprika (or cayenne if you prefer, in a smaller pinch) and half a teaspoonful of sait. If you wish to use mustard, put in a saitspoonful. ANNUAL JULY CLEARINGS

Will Begin Monday Morning Promptly at 8 O'Clock, in Every Section of This 14-Acre Store

Reductions have been made with one end in view-that to effect a clearing of all Spring and Summer goods in the speediest possible manner.

However, on staple goods, too - the things which are needed for personal and household use, practically every day in the year -many of these, too, have been reduced most liberally.

It has taken three pages to tell the Clearing Sale story, and you should read our announcement in tomorrow's Globe or Post or Republic-or still better, read them all, for you will find something in any one of them that the others do not contain.

This July Clearing Sale begins Monday morning promptly at 8 o'clock—the new store-opening time.

WHAT ARE WE HERE FOR? OW can we express our own thoughts or ideas best, to give ourselves and others the best results? This question of life in all its activities, Henry R. Poore, A. N. A., answers in "The Conception of Art," as art is conceived from the standpoint of the painter and sculptor. His own conception of art has the elements of greatness in it, which he may realize fully hereafter. For the present, he is hampered by dealing with facts. He brings he whole force of an able mind to bear on Cubists. Futurists and Post-Impresionists, in such a way that from beginning to end his book devotes much of its valuable space to showing that sense cannot be nonsense. If he had put all the absolute and arrant nonsense of the "new tendencies" into a small type appendix, his work might have been as interesting 20 years from now, when we have a new series of fads. as it is now Taking it as it is, however, it is highly interesting book for all who are their own best way. In explaning "what we are here for," he calls for spirited work which will express though o as to "fix" it. He comprehends that art is not a thing in itself but a method better expressed for the best in life. He studies this method as an evolution n race history among different people and shows how periods of painting and sculpture are affected by literature. Connecting Greek art with Plato's period in literature, he deals at some length above it. And so on and so forth until with Ruskin, and makes short work of Tolstoy. Before amending Delsarte's a greatly useful book, if Mr. Spalding definition, he might have omitted several had studied the first principles of edit-"greenery-yellery" esthetics and given more attention to great thinkers between Leonardo da Vinci and Si osnua Reynolds. London, July 4.—M. E. McLoughlin, seen by a Post-Dispatch representative after his defeat by Wilding, was rejuctant to express opinion regarding the result, but being pressed, replied: "I am quite ready to say the best man won. That is the kernel of the whole thing. Wilding played beautifully and thoroughly deserved his victory. I would certainly say that he played better than he did four years ago when we met in Australia. I, of course, played better, too."

Asked whether he thought Wilding's style and play hed improved since then. McLoughlin replied: "That is a very difficult question for me to answer. Both of us have changed our viewpoints since then. Mo. I have not thought about what may happen at our next meeting or when it may be. We may never meet again."

Although obviously disappointed at his defeat McLoughli took it with sportsmanlika philosophy. Asked by the Post-Dispatch whether he felt is was not playing at the top of his form today, or was not feeling well, or was bothered by sun or other constitution on the court. Rolloughin declined to make any statement regarding these points. Views Wilding's Victory

RECEIVER OF INSURANCE CONCERNS GETS \$4000 Allowance for Services Is Made

> Counsel. Judge Hennings made an allowance of \$4000 Saturday to Matt G. Reynolds for his services as receiver of the Contlental Assurance Co. of America, or the twin companies promoted by Harry B. Gardner, The allowance was to pay Reynolds for his work between May, 1910, and June 18, 1913. He had been previously paid \$5700.

by Judge Who Also Pays

Judge Hennings also allowed John S. Leahy and Chase Morsey \$4000 jointly for their services as counsel to the reeiver, and W. C. Marshall \$3000 for egal aid rendered to the receiver Leahy and Morsey previously had been paid \$4000 and Marshall \$1500. John O. Wilson was appointed ref

erec to examine the books of the Con-tiental Co., and also of the other Gard-ner life insurance company, which is algo in the hands of a receiver. Reynolds reported to the Court that here was a fund of \$150,000 in the hands of the receiver, and about \$100,000 appreciated; sustable for physicians or dentists.

Of This Number 28 Wern Drowned in Celebrating at Various Places in Country.

NEW YORK, July 5.-While the movement for safety and sanity in the celebration of the Fourth of July worked wonders in the reduction of the number of victims of gunpowder, dispatches from a score of points throughout the country as noted here account for 41 sersons killed and a variety of other accidents incident to the outpouring of the holiday crowds.

Twenty-eight persons were drowned, five killed in automobile accidents, five in a single train accident and two in aeronautic sports. This count, made from the comparatively few reports of minor tragedies filtering through the crush of holiday news, outnumbers more than twice the gunpowder accidents of the day.

The list of drowning accidents, known

The list of drowning accidents, known definitely to be as many as 25, is probably far from the correct total. Such tragedies are so frequent that unless two or more are victims at a time they are not reported. In this city and it vicinity alone there were 10 drownings yesterday. The New England district reported five.

There were six drownings in the Ohio River at Louisville. Ky., three at La Crosse, Wis., three at Pittaburg and one at Buffalo.

letters designed to create public senti-ment against Judge Ben B. Lindsey of the Juvenile Court, and which may lead to a petition for his recall, were distributed in Denver today. Behind the movement are a number of promi-nent women politicians headed by Mary Elizabeth Bates.

The woman said the Juvenile Court is a farce; that it is maintained at useless expense to the city and county and State and that instead of improving the morals of juveniles a worse condition now prevails among children in Denver than before the Court was created.

"It's a safety razor—I know it," said Mr. Jarr, "One cannot purchase a pair of shoestrings these days but what he's presented with a safety razor."

"I might have known you'd sneer at the gift," said Rangle in a hurt tone.

"Why didn't you give it to Gus?" asked Mr. Jarr, still regarding the bex dublously.

"Gus would not appreciate it," replied Mr. Rangle. "Anyway, he doesn't shave himself. Tony, the barber, is a customer of Gus's, so Gus patronizes Tony. Of course," Mr. Rangle with it is real cute!" said Mrs. Jarr when he showed it to her. "Of course it means you must make a handsome present to that man Rangle.
